

ACTIVITY: PROMPT MASTER CHALLENGE

Choose a Task

- Write an apology e-mail for a late Delivery.
- Generate blog intro for “Morning Routines for Students”.
- Create a quiz on World War 2
- Explain AI to a 6th grader

TASK I SELECTED: Explain AI to a 6th grader.

PROMPT:

The prompt was: You are an AI expert. Explain the AI concepts and roles to a 6th Graders about 200 words.

ASK CHATGPT:

“Please rate this prompt out of 10 based on clarity, specificity and effectiveness and then explain why”

specificity and effectiveness.

✅ **Prompt Rating: 8.5/10**

Breakdown:

- **Clarity (9/10):** It's clear that you want an explanation of AI concepts and roles suitable for a 6th-grade level.
- **Specificity (8/10):** The word count (around 200) and target audience (6th graders) are specified, but you could be more specific about which **AI concepts or roles** to cover (e.g., machine learning, chatbot, AI in games, etc.).
- **Effectiveness (8.5/10):** It's effective for producing an age-appropriate summary, though a slightly clearer focus (e.g., "include examples kids can relate to") would improve it.

✅ **Suggested Improved Prompt:**

"You're an AI expert speaking to 6th-grade students. Explain what Artificial Intelligence is, how it works in simple terms, and the types of jobs or roles AI can have in everyday life. Use fun examples (like robots, video games, or smart assistants) and keep it around 200 words. Make sure it's easy and fun for kids to understand."

This would score ~9.5/10 in clarity, specificity, and effectiveness.

IMAGE GENERATION USING DALL – E

PROMPT: You are an artist. Create a breathtaking cinematic sunrise over layered mountain ranges, with soft golden light illuminating mist-filled valleys. A flock of large birds gracefully soaring in the sky, creating a sense of freedom and depth. The mountains fade into the distance with atmospheric perspective, warm orange and cool blue tones blending harmoniously. Sparse autumn trees in the foreground, gentle fog drifting across the scene, highly detailed, photorealistic, ultra-high resolution, epic fantasy landscape.
